One claim, one rule

schematic

Claim

"...a laptop and a watch were stolen. The watch may be separately scheduled in the policy, but I have not found the policy schedule yet."

Rule

If the watch is **separately insured above CHF 1,000**, its value must be established by

receipt or expert valuation

bold: the condition
either document suffices

The condition is

true

schedule lists the watch above CHF 1,000

false

schedule does not list the watch

unresolved

schedule not found: the claim as written

the designs differ only in this row

Model applies the rules

returns one checklist

receipt

if applied correctly

no watch document

if applied correctly

receipt or nothing

a silent guess: the judgment behind it is not recorded

Code executes the rules

on the recorded judgment

request the receipt

receipt | expert valuation

one route suffices

skip both

receipt | expert valuation

neither is required

hold both and ask

receipt | expert valuation

"Was the watch separately insured?"

recorded: unresolved + quote
