(a) Mark an item correct or not correct (result checker)

Does the claim allege effects of the defect on anyone's health? The child's cough is reported, but its connection to mould is expressly unknown.

Mark each item as correct or not. Your feedback stays with the case; only the counts are evaluated. **1 correct · 0 not correct**

(b) Change the process, with a reason (process builder)

Edit "Capture defect and affected rooms"

Change

Add a document need

Document

Ventilation and heating record

Why it is needed

It shows whether the tenant ventilated and heated the rooms.

Required when

Always

is

Why this changes (required)

The landlord will argue that the mould comes from ventilation.

- [x] Use for similar cases
- [ ] Apply to new cases now (otherwise it is suggested until approved)
